[CONTACT US FOR LONGER STAYS](#)

At the AZBGC community center, in the village where most of our activities occur, there is a large partially covered space for gathering for meals and games, a stage for performances, an outdoor kitchen, basketball court, computer room, two bedrooms with bunk beds & mosquito nets, toilets and showers.

Let us provide you with the best village experience ever. Kamengo is a village of many surprises that we want you to explore. You will not want to miss the entertainment provided by our AZBGC youth, the Lake Victoria fish market, Eco-Forest hikes and excursions to marine sanctuaries.

Experience our culture and learn about the history of the village that was once a frontline in an international conflict but is now thriving again.

The goal of AZBGC is to assist rural vulnerable children and youth with basic health, education, recreational activities and development projects.

At the AZBGC, we work to improve health and well-being, enhance youth development, foster community growth, and create employment to reduce poverty and inequality, for all children and youth in our program.
